

Adorable Tubular Gift Packaging Project

Hello crafty friends! I've spent a lovely evening in my craft room creating the most adorable Tubular Gift Packaging! A few of you have asked for a tutorial so here it is 😊 Anything to keep you all happy and crafting! This is my finished project, however, I am only providing basic instructions and measurements today, so that you can use your own supplies at home.

My project features the wonderful Pretty Poinsettia Bundle! It's a new online exclusive launching in July! I also used Peaceful Garden Glimmer Paper (just £5 while stocks last), and Peaceful Garden DSP (£11.75). Colour used for stamping is Secret Sea. Also used the iridescent bags from Stampin' Up! too!

These would make wonderful gifts, stocking fillers, care packages, teacher gifts and craft fair items. I have a biscuit, tea bag, sugar and sweetener in mine, but these would fit fluffy socks too!

Project Instructions

- Cut DSP / Cardstock to 9" x 3-3/4" – Attach tear and tape to end and shape into tubular shape
- Cut a further piece of DSP to 9" x 3-1/2" – Attach tear and tape to end and pop around first piece.
- Cut a piece of Card to 3-1/4" squared and cut little triangles off of corners – Hot Glue your tube piece to this (be careful!)
- Cut a piece of Card to 1/2" x 7" and attach with wet glue to inner side of tube to form your handle
- Decorate around the join on tube to hide the join with die cuts of choice.
- Add contents to inside, optional to use shredded tissue paper too.
- Using the Stylish Shapes Dies make a label using two largest banner dies. Stamp sentiment of choice. Attach to your treat bag (or handle) using co-ordinating ribbon.
